

Creating satisfying results for years...

“ I have always wanted to look natural. I don't wear much makeup, and it has been important to me to maintain that look over the years. That is how I started to use *Restylane*—I cannot believe it's been 20 years already! ”

Louise, a Swedish 65-year-old, was one of the very first patients to be treated with *Restylane* in 1996. Louise has been continuously treated with *Restylane* over the past 20 years. She will continue to use the product to help her keep her natural look as she gracefully ages.

GALDERMA

Get the natural, elegant look you want

The complete line of *Restylane*® fillers can help your specialist customize a treatment plan to create the look that is right for you

- Restore volume lost to aging for a youthful appearance
- Enhance shape and definition for a balanced appearance
- Treat specific facial areas such as cheeks, mouth/nose folds, lips, and tired eyes
- See immediate results following your treatment

Talk to your specialist about which *Restylane* products may be right for you.

Restylane

As for all injection treatments using hyaluronic acid dermal fillers, side effects may occur in association with treatment. These side effects are usually mild to moderate, and include transient reactions such as redness, pain, swelling, bruising and/or bumps at the injection sites. Please consult your clinician for additional information.

GALDERMA

Naturally *Restylane*

With the *Restylane*® line of products, your specialist can customize the perfect treatment plan to enhance your natural elegance.

Restylane
Natural Elegance

Authentic, natural, confident

As we age, our skin loses fat, collagen, and other important elements that provide facial volume and support. We also start to see the formation of lines, wrinkles, and folds that can contribute to us looking older.^{1,2}

With the *Restylane*[®] line of products, your specialist can create a personalized treatment plan to help address the signs of aging. As one of the world's leading hyaluronic acid fillers, *Restylane* is specifically designed to restore facial volume as well as enhance shape and contour. Results are instant, with an effect that can last up to 18 months, depending on the treatment area.^{3,4}

Delivering safe and reliable outcomes for more than 20 years,⁵ *Restylane* provides the natural elegance that will have you looking good and feeling even better.⁶⁻⁸

Talk to your specialist for more information.

Cheeks: Loss of fat can lead to a reduction of volume in the cheeks, giving a sunken appearance.

Nose/Mouth Fold: Over time, the skin of our cheeks may drape or sag over the line between the nose and mouth (nasolabial line) to become a fold, which creates a tired look to the face.

Lips: Our lips lose definition and contours over time—treatment can help reshape and enhance this area.

Thin to Full

Tired Eyes: Aging can lead to volume loss in the lower eyelid, accentuating tear troughs and giving the appearance of dark circles under the eyes.
